Standard features

DC motor technology

DC motor operates with variable speeds for soft start and stop, smooth operation and less wear and tear on your garage door.

CodeDodger[®] 1 Access Security System

Each time the remote control is activated a new access code is selected from 4.3 billion possible combinations to prevent piracy of the radio signal that opens your door.

Easy programming

Quick, effortless limit setting for faster installation.

Frequency range

Reliable frequency range to ensure consistent operation.

Self-diagnostic Safe-T-Beam[®] system

When objects pass through the infrared beam, the door automatically stops closing, and then reverses.

Light system

Illuminate your garage with built-in lighting.

Compatible with Car2U[®].

Compatible with HomeLink[®].

Convenience options

Enjoy your new Overhead Door[®] garage door opener to the fullest with optional accessories. These accessories work with openers that feature our CodeDodger[®] 1 Access Security System.

Digital wireless keypad

Available in four colors, this lighted keypad features a flip up cover and lets you control up to three garage door openers.

Emergency release

Releases the garage door opener from the outside during power outages so the garage door can be opened manually.

Remote controllers

Available as 1, 2 or 3-button remotes.

Distributor services

Installation

Selection of an Overhead Door garage door system includes the expert installation and service from our professional network of over 450 Ribbon Distributors.

Routine maintenance

Let your Overhead Door Ribbon Distributor ensure that your garage door system operates at peak performance year-in and out. Ask about routine system tune-ups and other professional services offered.
